

21.11.08

Dear Mr. Obama

For more than 50 years, the US government has kept secret the fact that we are being visited by extraterrestrial visitors.

This truth embargo does not only affect the United States, but the rest of the world and the whole mankind. I am not an American citizen, but I am like you - a citizen of this precious planet. In 1989 I have seen a triangle shaped object flying completely silent with my own eyes near Dresden/Germany. That's why I'm also convinced of the existence of unknown technology.

Therefore, I respectfully ask you in the name of mankind to help break up this truth embargo in your future role as President of the United States.

Please demand an exhaustive military and intelligence briefing about the extraterrestrial presence and related phenomena.

Please help creating official hearings before Congress so that countless government and military officials can testify under Oath about their first-hand experiences with UFO and ET-related phenomena.

Please inform the American public, as well as the whole world, about the ET presence on our beautiful planet.

As the future president of the United States of America, you have the power to change human history in a sustainable and positive way. The bright future of mankind is in your hands. Please assume your responsibility and lead mankind on its path towards welcoming the extraterrestrial visitors here on Earth, for we are living in a populated universe, and each civilisation has to recognize its place in it.

I trust that you will use this occasion for disclosure of the fact that we're not alone.

Be the change that you want to see in this world. Be the Disclosure President.

Yours faithfully,
K. L.
Berlin, Germany
