On November 9, 2013 I will be presenting a new lecture on Consciousness, UFOs, and Reality. This is the 5th generation of this lecture first given in Leeds England and inspired by an awakening I had while watching a lecture being given by crop circle authority Colin Andrews in late February 2012. The lecture will take place in Hamilton New Jersey at the [NJ UFO Paranormal Conference](#)

. Now read the bizarre story of how on key slide on the holographic universe got into the presentation at my [Whitehouseufo blog](#).
