Grant Cameron was recently notified of one of his FOIA requests at the [Clinton Presidential Library](#) for records pertaining to the late astronomer, astrophysicist, and cosmologist, [Carl Sagan](#).

Here follows an excerpt from the letter...

This letter is in further response to your request dated September 5, 2006 for release of information from the William J. Clinton Library for Clinton Presidential records under the Presidential Records Act (PRA) (44 U.S.C. §§ 2201-2207) and Freedom of Information Act (FOIA) (5 U.S.C. § 552). We have completed processing, according to the provisions of the PRA and FOIA, the approximately 575 pages of Clinton Presidential records responsive to your FOIA request on records related to Carl Sagan. Please keep in mind that the page total is an estimate and that all pages processed might not be applicable to your specific topic. Of these 575 pages of Clinton Presidential records, 68 pages have been restricted in whole or part in compliance with the restrictions of the PRA and that specify what material can be released to the public. A list of applicable PRA restrictions, FOIA exemption categories, and a copy of the finding aid that describes the processed material is attached. Further, the number of pages restricted from access, in whole or in part, is listed along with the restriction categories below. Some pages may be restricted under more than one category.

Clinton Library Releases 500+ Pages on Sagan
